Avenger 227 Clean Agent Cylinders

Cylinders & Valve Assemblies, 375 lb. To 650 lb. Capacity

Description

The Avenger Systems 227 clean agent systems are intended to be designed and installed to protect single or multiple hazards within the limitations tested by a recognized testing agency. Authorities Having Jurisdiction (AHJ) should follow the information specified by the Standard on Clean Agent Extinguishing Systems, NFPA 2001. The equipment described in this catalog are listed by Under-writers Laboratories Inc. in compliance with UL standard 2166. The clean agent cylinders are man-ufactured, tested, and stamped in accordance with DOT 4BW500 or TPED.
The cylinder must be installed in an upright position with the valve on the top

Materials

Valve Body: Stainless Steel
